

Annual Performance Report 2024

Executive Summary

This report summarises the financial and operational performance of the organisation during fiscal year 2024. Overall revenue grew by 12% compared to the prior year, driven primarily by expansion in the Asia-Pacific region.

Operating costs remained stable at approximately 68% of total revenue, consistent with the five-year average. Capital expenditure increased by 8% due to the new datacenter investment completed in Q3.

Financial Highlights

Total revenue for fiscal 2024 was \$4.2 billion, representing a 12% year-over-year increase. Net income reached \$620 million, a 15% improvement versus the prior year. Earnings per share rose to \$3.45 from \$3.00 in fiscal 2023.

The board approved a dividend increase of 10 cents per share, bringing the annual dividend to \$1.20. Share buyback programme repurchased 2.1 million shares at an average price of \$42.50 during the year.

Conclusion and Outlook

Management remains confident in the organisation's growth trajectory for fiscal 2025. Guidance for next year projects revenue growth of 8-10% with stable operating margins.
